EPIQ

European partners in quality

A sturdy, stylish tray, an unbreakable tumbler or plate, and other catering products, enhances the customer experience in your restaurant, bar, canteen or hospital. That's a statement we and our partners all agree on & which gave us food for thought. EPIQ, European Partners in Quality, was launched in 2017. Why? To offer our customers a wider range of products that stand for 100% quality and are produced on European soil.

August Lundh, Sweden

Swedish quality

August Lundh has delivered catering products for the professional kitchen for nearly 100 years. Today they have an extensive portfolio of virtually unbreakable products for everyday consumer use and for the professional kitchen. They supply their products to hotel, restaurant and catering customers as well as to the public sector and retail stores via wholesale catering distributors. Their vision is to be the market leader in their field and achieve to exceed their customers' expectations by constantly developing their business in terms of safety, quality and delivery.

August Lundh
ESTABLISHED 1921

AMC, Spain

Tableware, trays and trolleys

A.M.C. is a European company founded 20 years ago in Spain. Their objective is to comply to the demand of communities and hotel industry products in national and international markets. Nowadays they have a large client list, as well as the most innovative production methods. As manufacturers, designers and wholesalers of the articles they are offering a full range of products, with all necessary EU-certifications.

CWK, Sweden

A legacy of flexibility and durability

For more than half a century, CWK has been supplying their business partners with professional kitchen utilities. High quality, good service and quick deliveries are always their top priorities. CWK is established in Malmö, southern Sweden. The majority of their products are locally produced, whilst everything they offer is produced in Europe. CWK takes great pride in their inheritance, and they'll continue to strive for a stronger European economy.

Plastico, UK

Smart Packaging & Tableware

Trading for over 70 years, Plastico has been at the forefront of innovation in food & beverage packaging, display and service. Plastico is and always has been a family owned manufacturing business with quality, service and innovation at the core of everything it does. For many years Plastico has serviced a wide variety of market sectors and international markets which has provided the company and it's people with all the experience you need in a great partner!

Harfield, UK

Harfield, quality tableware since 1961

Harfield are the UK's leading supplier and manufacturer of polycarbonate and copolyester tableware. They have led the way in innovations designed specifically for the customers. These include world firsts: antibacterial tableware; Oven to Tableware and patterned polycarbonate and copolyester plates and bowls. When you buy a Harfield product, you are buying quality and reliability from a leading brand, backed with outstanding customer service.

Proplast, Greece

Plastic and shelving industry

PROPLAST S.A. was established in 1978 in Thessaloniki, Greece. The company produces HO.RE.CA. products such as certified cutting boards, non-slip trays, fast food trays, bar mats, modular and adjustable shelves for cold rooms and trolleys for trays. Many of the products are patented. The aim of the company is the continuous presentation of innovative and quality products that make our lives easier.

Roltex, Belgium

Our tray, your way.

Roltex is Europe's leading manufacturer of serving trays and other food serving solutions. They continuously improve the experience value of their full range of products that are a reflection of your environment: the atmosphere of your restaurant, the hustle and bustle of your café, the care you deliver in your hospital or your care home, the energy of the children in your school ... Innovative products that are eco-friendly, as a reflection of Roltex's determination to strike a balance between ecology and sustainability.

Serving trays.

Enhance your customer's experience and serve them with the finest trays, made in Europe. Ecologic, laminate, polyester, plastic ... ? Our tray guide on the next page will help you choosing the right material.

Ecologic

A lifelike wood print, an image or a logo on a practical serving tray. Perfect. And made of 90 percent sustainable materials. Our eco-friendly, dishwasher-safe trays are ergonomically designed to be left to dry before stacking. Opt for the always-in-style Puro or the quirky Wave and a fully customizable print. Eco-friendliness personified.

Our eco-friendly trays are durable and long-lasting, under normal usage conditions. The material is not unbreakable, cracks or chipping may occur when the tray is dropped or knocked against a hard surface.

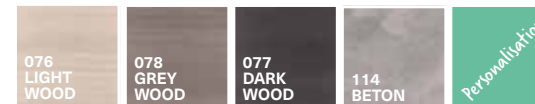

Earth tray Wave matt structured surface

Sustainable design for a better world

Surf along on this successful Wave. In a class of its own on the specialist market, this serving tray gives priority to user comfort and a natural feel. With its smooth edges, this tray not only feels comfortable in the hands it looks stylish too. Wave can be ordered in a variety of versions. The trays with their textured surfaces always feel like natural wood or concrete to the touch. A perfect reflection of the way they were made, with due respect for nature!

In a class of its own

The Wave tray scores points thanks to its flowing ergonomic shape and tactile surface. If you wish to add something to the natural wood appearance, we will be only too happy to incorporate your logo, an illustration, photo or text into the design. This will ensure that your elegant tray stands out even more and keeps your brand fresh in the customer's mind. Go to p 57 to find out more about personalisation.

Antislip - earth tray wave & puro

Everything stays in place

There is nothing more annoying than having food or drink sliding about on a tray. Which is why Roltex offers you slip-resistance qualities with 1 year warranty: an additional antislip coating on your trays to ensure your customers, and little customers, do not have to contend with a slipping and sliding experience when walking to their seats.

INFO:
Long product life? Treat your antislip well by washing your tray immediately after usage and dry before stacking. Antislip behaves best on darker colours and we recommend you avoid cutting directly on the surface.

Case study

Soupissime opts for Roltex Wave

During a visit to Soupissime we put a few questions to Gary Legrand, the owner of the catering establishment, and Quentin Labrique, a regular customer. Gary told us about his investment in top-quality serving trays:

Gary: "My interest was immediately aroused when I heard people talking about Roltex's new environmentally friendly Wave tray. The attractive design and the natural wood look really appealed to me. And to top it all off, we were able to have the trays customised. Branding is obviously important and this enabled us to complete the picture."

Gary Legrand

owner of Soupissime

"It's important to make this investment, as a tray is, after all, the first contact a customer has with Soupissime."

"As the finishing touch, this tray completes the restaurant experience we provide."

Quentin Labrique

Customer at Soupissime

"As far as I'm concerned, elegant and sturdy serving trays speak volumes about the quality of the food on offer."

"My tray has to be reliable and pleasurable in line with the qualities you expect from Soupissime."

Earth tray Puro matt structured surface

Refined image

Natural elements belong in a contemporary interior. But your serving tray should also be easy to maintain and hard-wearing. The good news is that Puro has all of these qualities. The tray is convincingly like real wood, marble or concrete (whichever way you look at it) with an applied texture and soft touch finish. And it is ideal for everyday use.

Case study

An ecological visit at Le Botaniste

The Puro tray is a gem from the Earth Tray collection; your tray in an ecological jacket. And that's what they appreciate at Le Botaniste. The restaurant, with its organic and vegetable cuisine, started in New York and is now conquering Brussels and Ghent.

Roltex asked Ronan, a regular customer at Le Botaniste, about his experience with the trays and spoke to Gergory Verellen, who is responsible for purchasing the Earth tray Puro.

Ronan

Customer at Le Botaniste

Eating on an ecological piece of art.
“A quick, healthy and organic bite: that's what I was looking for and what I've found at Le Botaniste. Moreover, it is very pleasant dining here and the trays certainly contribute to that. They also fit in perfectly with the interior, are sturdy and feel good. I'm a fan!”

“Hygiene is very important to me.

The clean, scratch-free trays are very nice.”

“I finally found the tray

I had been looking for for so long.

And it's Belgian too!”

Gregory Verellen

Purchaser trays

Everyone loves the trays
“Serve organic, vegetable and healthy food on a typical plastic tray, that's not possible. We were looking for a product that is made with ecological materials, has a long life span and is CO2-neutral. Not obvious, until we ended up at Roltex and discovered the Earth Tray Puro. It feels natural and is 90% ecological.”
“Le Botaniste wants to offer customers not only organic food but also a unique experience. The tray plays a major role in this, because it is on average thirty minutes in front of our customers. The decision to extend the design of the restaurant to the trays was therefore quickly made. This beautiful visual design strengthens our image. Everyone loves it!”

Laminate

Made from layers of paper, our custom-ised laminate trays open up a world of possibilities. Choose your model and then determine your print. Scratch-resistant? Certainly. Antislip? The choice is yours. Opt for a wood print, a standard colour or your own logo. These trays should be dry before stacking. Every tray is also available in a bio-resin version for the environmentally aware.

Our trays are durable and long-lasting, under normal usage conditions. The material is not unbreakable, cracks or chipping may occur when the tray is dropped or knocked against a hard surface.

Original smooth surface

Style makes the difference

A serving tray for those seeking added value: 'Original'. Choose from an authentic look and charm even your most sophisticated customers. Understated, handsome design, finished with a scratch-proof surface.

Antislip

Everything stays put

There is nothing more annoying than having food or drink sliding about on a tray. Which is why Roltex offers you slip-resistance qualities with 1 year warranty: an additional antislip coating on your trays to ensure your customers, and little customers, do not have to contend with a slipping and sliding experience when walking to their seats.

Polyester

Our heavy-duty polyester trays come with a breakage warranty to underscore our confidence in these products. Incredibly hard thanks to the addition of glass fibres, the form-retaining trays can withstand the rigours of industrial dishwashing several times a day. It is up to you to decide whether to choose the natural-looking Dura or the Grain with its ultra-resistant surface. As for the design, this can also include your logo.

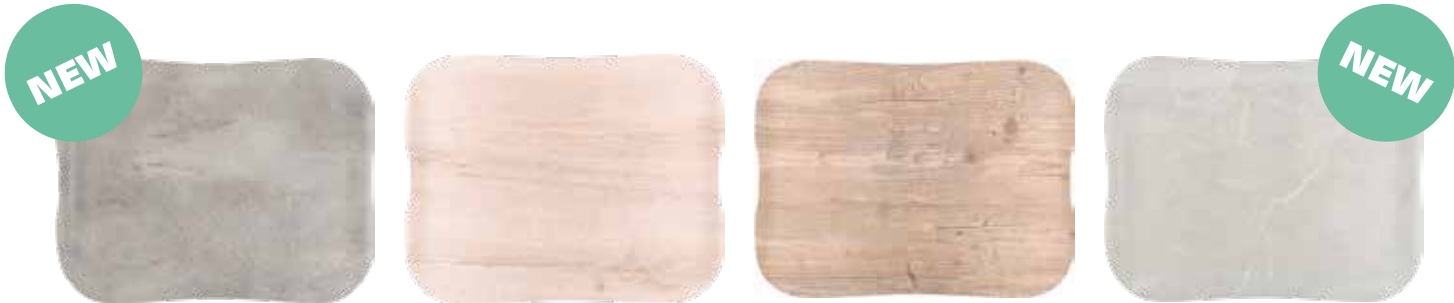

Dura matt structured surface

The best of both worlds

The Dura serving tray may have a natural soft appearance, but don't be fooled: this tray is rock-solid*. It is made of polyester and glass fibre, which means it is extremely rigid and easy to grip. The elegant, ergonomically sound Dura is provided with an extremely attractive finish.

Weight 609 g	Weight 716 g	Weight 592 g	Weight 609 g

Our trays are durable and long-lasting, if treated correctly. However the material is not unbreakable. When dropped or knocked against a hard surface, the tray might chip or crack.

AVAILABLE SIZES DURA - see also page 55-56

Dura 41,5 x 30,5	Dura 42 x 32	Dura 43 x 33	Dura 45,5 x 35,5	Dura 46,5 x 35,5	Dura 53 x 32,5
41,5 x 30,5 cm	42 x 32 cm	43 x 33 cm	45,5 x 35,5 cm	46,5 x 35,5 cm	53 x 32,5 cm

Grain matt structured surface

Exceptionally strong

You don't have to be an architect to realise that structure means strength. Grain is a heavy-duty tray with a granular surface for better grip and stability. The tray owes its natural feel and appearance to the matt granular texture of the surface. This also means that the Grain can withstand tough environments, so you can count on using it for many years to come.

Do not mix white and black trays, and avoid unglazed porcelain on a black tray.

Case study

Grain-tray: four years of service at Corda Cuisine

The trendy self-service restaurant of the Corda Campus focuses on daily fresh products. It uses stylish, high-quality materials for its interior. With Roltex's Grain, it extends this into its trays.

Peter: "In a self-service restaurant, it is important that the trays can take a beating. Our concept revolves around tasty healthy food, but also about cosy dining. So no boring trays here, but nice and personalised trays. Even after four years, the trays are still in perfect condition. And that's how it should be! In addition, information about the other Corda places is printed on it. That's how customers find their way there too."

Peter Delanoy

Facility Manager
Corda

"The fact that Roltex is a European manufacturer only makes it easier for us. This means that the contact runs very smoothly."

"We prepare up to a thousand meals a day. The trays experience a lot, but the customer doesn't notice."

"The tray feels firm. The look-and-feel gives an extra touch."

Robbe Vocaet

Customer at Corda Cuisine

"The trays are immediately recognisable because of the Corda logo. They really fit in with the interior. Corda Cuisine pays attention to the details, I really appreciate that. An example for other catering businesses."

Classic smooth surface

Classic power

If you are looking for a no-nonsense tray that can hold its own, allow us to introduce the Classic: the polyester serving tray of all polyester serving trays with a **5-year warranty** against breakage. Uniquely reliable, hard-wearing and comfortable to hold.

Plastic

Spanning the entire range from eco-friendly to heavy-duty products, plastic trays offer many advantages. The composition of our lightweight, reusable plastic trays varies from bio-plastic or PP to ABS to create an incredibly tough product. Standard rectangular or remarkably round, completely open or segmented, in the colour of your choice. The eco-trays now also feature visible wood fibres, to add an extra touch of authenticity.

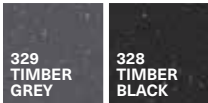

Eco plastic

Paturel

A masterpiece in every way

A serving tray that is a combination of an elegant, ergonomically sound and environmentally aware design. The lightweight Paturel tray is made from 45% - 50% wood fibres. If your priority is environmental friendliness and you are looking for a lightweight, ergonomically sound, well-designed tray then Paturel will not disappoint!

Flat Tray Polypropylene

Made from food grade polypropylene. Available in 8 colours. 16 x 12 " (41 x 30 cm) Size, with diamond pattern on the inner rim. Polypropylene flat serving tray, often described as a fast food tray, has an attractive diamond pattern around the inside lip. Whilst not as strong as polycarbonate, polypropylene is a light and durable plastic. This tray is ideal for carrying plates, bowls and tumblers. It is not designed for food to be eaten from it directly. Please note that this tray is not suitable for high temperature dishwashers.

INSTRUCTIONS LOGO & DESIGN FILES

Ready to bring out the best story on your tray? Or do you want a perfect branding?
Follow this checklist when sending your file to us & all will run smooth.

- 

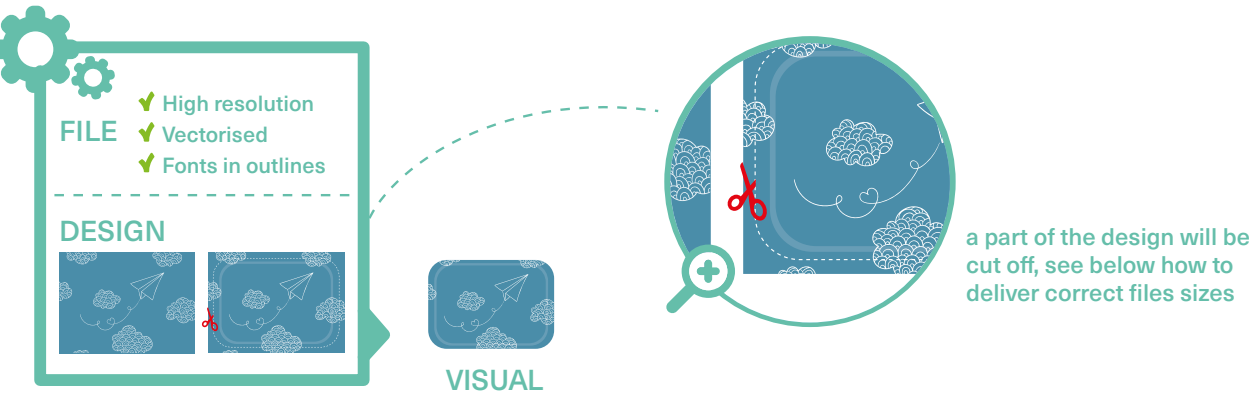

We prefer vector based files in pdf, eps or ai file extension.
When using fonts, please create outlines for all text or e-mail us the fonts you use in your design.
For images we prefer high resolution files with at least 300 DPI at final print size in pdf, tiff, jpg or psd.
- 

We can not use low resolution files, word documents with pasted images or e-mails with a pasted image, please always enclose your files as attachment.

- Guides**
- Virtual image within 48 hours : free of charge
 - 3 versions with modifications – after that: € 50 / hour
 - Physical sample on demand
 - Order quantity might vary +/- 10% to delivered quantity

Personalisation ecologic & laminated melamine

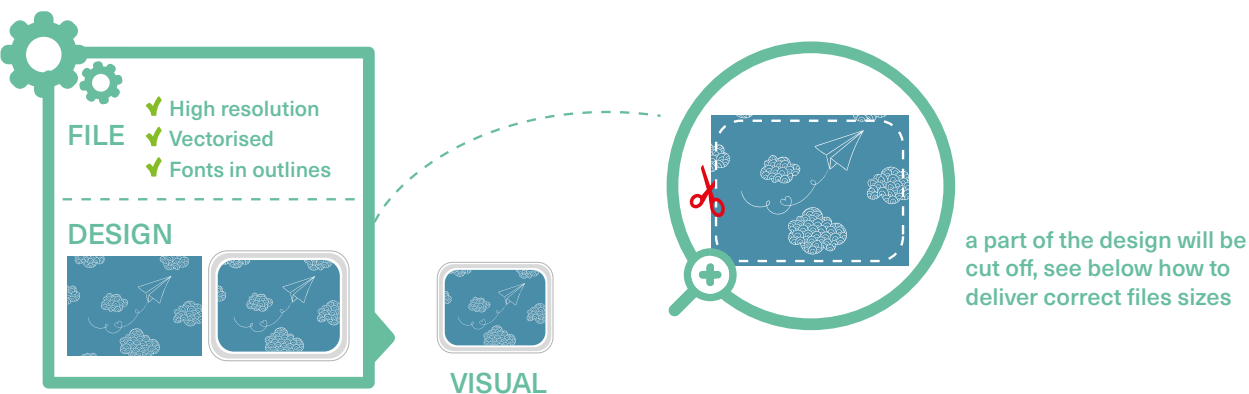

Would you like to create your own artwork?

Great! Follow the size guide below for best print fitting. The extra image is necessary for our production process. Good luck!

Presentation

Wood, slate, marble, concrete, all combined with the practical advantages of polyester, including dishwasher-safe qualities. These platters allow you to take your display to the next level in no time at all. From cold cuts with a breakfast buffet to snacks during a reception. Choose from a variety of sizes, shapes and colours. Our S-Cube makes light work of working in different levels. Let your imagination run wild.

S-Plank

Sturdy, stable and super original

The S-plank gives a new meaning to having everything handed to you on a platter: the S-plank is adored by all its users! The platter is made from polyester but appears wonderfully natural. It allows meals, such as tapas, bread rolls and meat dishes, to be shown to best effect. The S-plank's textured surface is visually pleasing and provides a better grip. Add a personal touch and opt for the perfect format and design for your business. The optional feet give better stability and make it easier to serve and pick up.

S-Cube

The revolutionary buffet display solution

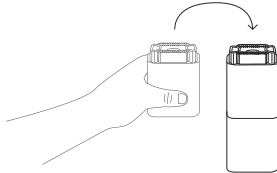

This revolutionary product takes us back to our childhood; building blocks. Put 4 S-Cubes on your table and finish them with our S-Plank to create new display solutions for your buffets. Combine different heights with different S-Plank dimensions and let your imagination run free. This HDPE material has a matt, soft touch finish and is perfectly dishwasher safe. Let's start building.

Build your buffet

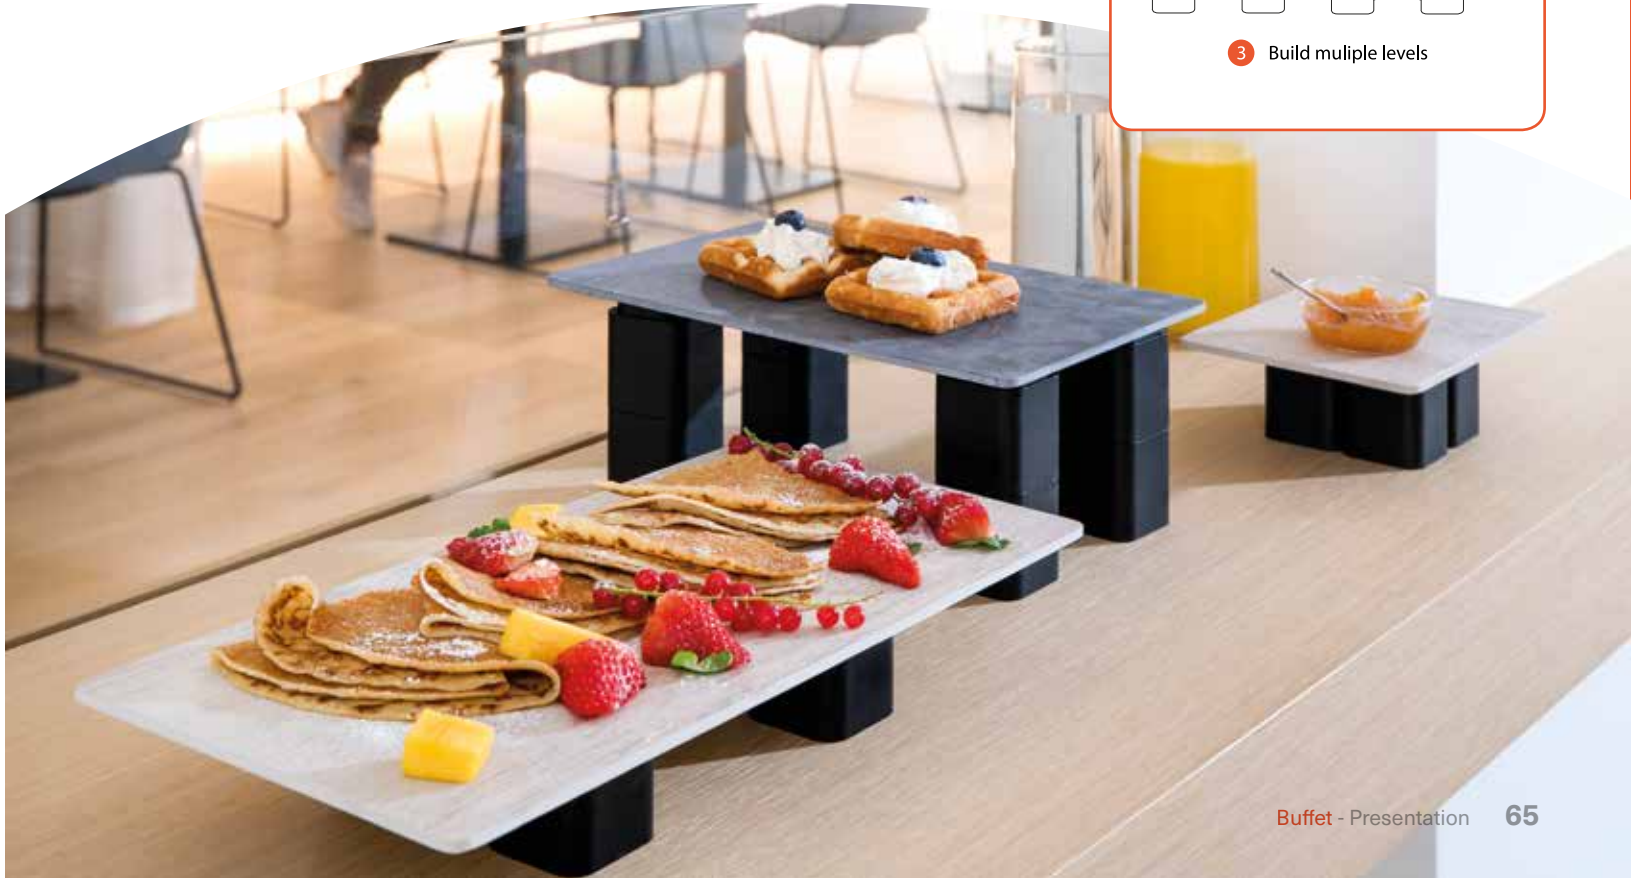

1 Build your base with S-Cube

2 Finish with S-Plank

3 Build multiple levels

Drink dispenser

A glass of deliciously fresh fruit juice or refreshing flavoured water? A practical drink dispenser, so everyone can serve themselves. Simple and without spillage. Match the drink dispenser in the desired size with the accessories of your choice: an extra base, anti-drip tray or a cooling element. The plastic version and the smart design are your guarantee of ease of use and maintenance well into the future.

Accessories

Our handy accessories make it easy for you to create a practical and stylish buffet. Charming wicker baskets are combined with plastic lining to ensure a marvellous display of bread and delicious, freshly boiled eggs. Cleaning is kept to a minimum. Good for you and good for your guests, who will appreciate how easy it is to place their cutlery in the trays provided for this purpose, ready to be popped into the dishwasher. Three cheers for efficiency.

Drinkware

A man or woman's clothes speak volumes and so do glasses when it comes to drink. You have to admit: a drink always tastes better in the right glass, even in situations where glass is not ideal. The PC Safe, unbreakable polycarbonate glasses come in all shapes and sizes: from cocktail glasses to long drink recipients and from beer glasses to tumblers. For raging thirsts or wetting your whistle.

Case study

Cheers, to our cooperation with the Westmalle brewery!

Roltex went on a visit to Westmalle and met sales director Guido Bastiaensen and marketing manager Manu Pauwels at the abbey.

The printing remains beautiful
and that is still the intention
to have the brand visible.

Drinking from an unbreakable glass

Guido: “Guido: “We had no experience with plastic glasses yet”, says Guido. “But Roltex immediately gave us the feeling of quality and reliability. We followed our guts and got a nice, unbreakable Trappist glass instead.”

“Don’t compromise and only go for the best, that’s our philosophy”, Manu adds. “When we sat down at the table with you, we immediately

Westmalle brewery

Their own glass

In the abbey of Westmalle, barley juice bubbles and cheese ripens. The delicious end result? This is what the brewery presents on three of our products:

1. The unbreakable Trappist glass with logo
2. The oblong S-Splank with logo
3. The round tray Round 45

noticed your passion. You had to and would give us the perfect Trappist glass. It was a new challenge for you too, and that didn’t frighten you. Everything went perfectly.”

With a slice of cheese to go with it

“Also our delicious Westmalle cheese is served in style. That’s why we like the S-Plank”, says Manu. “It is unbreakable and easy to maintain. And our logo shows off on it. The printing possibilities are almost

endless and the print does not wear off.”

Tray that serves your beck and call

“In all these years, a lot of trays have passed in review here. They all had their strengths but also their weaknesses. While the Round tray scores well across the board: it is practical, sturdy and not too heavy”, says Guido. “Moreover, it has the right appearance. So no, there are no downsides.”

“The glasses look like real glass. Fantastic!”

Notes

2

Trays

Beers during a festival, a glass of bubbly in the wellness centre or a round of drinks in the local bar: the drinks will soon be in the hands of your thirsty guests thanks to our standard round and rectangular trays, smoothly delivered to your thirsty guests. You have the choice of a laminate, plastic or eco-friendly version of our trays, all featuring an anti-slip coating on the inside. As they say, there's no point crying over spilt milk, but broken glass is the last thing you need during a busy shift. Or opt for the cork option to make a difference.

Devan tray

The Devan tray is exclusive in the market because of its ringed back. Ergonomic serving and no more broken glasses because of its antislip coating.

Paper straws and handy freshener

The arrival of the mussel season is a time of celebration in the food scene. Each shell is an aromatic explosion. Whether you serve them in white wine, cream sauce or au naturel, they are finger-licking good. And to clean their hands afterwards your guests can use our biodegradable wipes. Equally environmentally friendly are our European-manufactured paper straws available in different colours and sizes.

Tumblers

From standard transparent to quirky and featuring a cute animal: go for water glasses tailored to your audience. Rounded or preferably cylindrical, with or without a lid? Our tumblers come in a variety of sizes, shapes and finishes. The polycarbonate option means they are built to last, while the various PET-G models are perfect for a hospital or a child care centre, for example.

Notes

Cups

Everything tastes better in a heavy-duty, elegant cup. Even when a plastic model is required owing to specific circumstances. Our mugs and cups are a stylish option for hospital patients or for (over) eager children in a nursery. Take your pick from the various coffee cups, soup cups and reusable coffee-to-go cups. These isothermal items also come with saucers.

Bottle

There's too much disposable plastic in the world and plastic bottles are among the villains of the piece. Fortunately, there are viable alternatives, such as our PET-G, reusable bottles, that are dishwasher-safe and customizable. An attractive appearance was uppermost in the minds of the designers of the colourful caps. Because looks also count, even when the ecological perspective comes first.

Meal trays

If you are looking for a convenient method for serving meals why not explore the possibilities offered by our wide range of meal trays. With a number of compartments according to preference, for the convenience of your staff and guests. Some recesses can hold cutlery or a drink. Each model is available in a variety of colours.

Small Sectional Meal Tray

Virtually unbreakable small meal tray. Available in 7 colours. Widely used across education. Small meal tray with 4 compartments: one large for main meal; one for tumbler; one for cutlery and one approximately 3/4 size of the largest compartment, ideal for desserts. Helps reduce queuing times by eliminating multiple trips to serving areas.

Covers

A hot meal should be eaten while still hot, even when it cannot be served immediately. For example, in a hospital environment. Our isothermal lids help to keep meals piping hot, while our regular lids are ideal for keeping food fresh for longer periods. Whether keeping food hot or fresh, all our lids are microwave or dishwasher-safe.

PP cover without hole

Able to stack multiple plates with covers on top of each other.

Utensils 216

Forks, knives and spoons

An easy-to-handle fork, knife and spoon are essential for a pleasant meal. Goodbye to plastic cutlery that breaks on the third bite, hello the unbreakable alternative. Our polycarbonate forks, knives and spoons run the gamut from standard to colourful: alternatives are available for children and adults. Even the smallest teaspoon.

Standard Fork

Thick polycarbonate standard size fork for use by older children and adults. Four tines to improve functionality. Our standard polycarbonate cutlery is non disposable and is ideal for any usage - picnics, BBQs, parties, school meals etc - any situation where lightweight, quality, reusable cutlery is needed.

Plates and covers

Help people with restricted mobility to continue eating as independently as possible. These raised-edge, unbreakable polycarbonate plates make it easy for everyone to use their eating utensils. The non-slip coating keeps the plate in place and the matching lid keeps the food fresh and piping hot. You have three different colours to choose from.

Assisted dining plate

Our high quality assisted dining plate has a high rim, making it easier to scoop food onto cutlery. The integrated friction plate holds the plate in place, and the bright colours makes it ideal for anyone with cognitive, motor or physical impairments. The plate is suitable for any type of dish, from soup to dessert.

Cutting board, plate stacker and dustbin

Crockery, cutlery, containers ... and yet your catering establishment is only truly efficient when it is equipped with unbreakable cutting boards, plate stackers and waste bins. The metal plate stackers can also be mounted on the wall, on a ship, for example. Our cutting boards come in different colours and sizes so that each food group can be kept completely separate. Finally, the waste bins are supplied with suitable bin liners. Everything neat and tidy.

Trolley and shelves

Use our equipment shelves to store your products on racks in your fridge or freezer in a well-organised way. The shelves can be easily extended to make efficient use of space, even in the corners of your cold store. If you prefer mobile racks, opt for one of our trolleys to help you serve at the guests' tables and clean up with maximum user comfort. Small, large, wide or narrow, choose the right equipment shelves for your staff.
